

Global Impact Bond Landscape

Monthly Snapshot: December 2020

New total: 201 Impact Bonds Worldwide

Capital Raised: >456 USD million
Median: USD 1,312,997

- Calculations are based on the variable "Total Investment Commitment - Exact Amount in USD".
- This figure is based on available data from 164 projects.

Service users: > 842,537
Median: 411 service users

28 cases have data on actual number of service users, 141 cases have data on target number of service users and 32 cases do not have data on service users.

Global Impact Bond Landscape

Monthly Snapshot: December 2020

- Completed: 40 Impact Bonds
- Implementation: 161 Impact Bonds
- Average service delivery duration: 50 months (4.2 years)
- This figure is based on available data from 198 projects

Increases in capital raised and engaged service users are related to the availability of new data for the project 'Haebom Project - Gyeonggi Province SIB' (INDIGO-POJ-0075) and the addition of the French project 'Fonciere Chenelet SIB' (INDIGO-POJ-0204).

Notes

- All figures are compiled following a transition to the [INDIGO](#) database system. Please read our new [Dictionary of Data Definitions](#), have a look at the open-source code on our [GitHub site](#) and/or leave us feedback [here](#).
- **Service users:** The number of service users is a combination of two values. Completed projects have data on the actual number of service users and ongoing projects have data on target number of service users. If we have data on actual numbers, we will use them. If the project only has data for targets, we will use target numbers. This calculation is based on the variables "Service and beneficiaries - Targeted number of unique service users or beneficiaries" and "Service and beneficiaries - Actual number of unique service users or beneficiaries". In future we propose to report on these figures separately.
- **Capital Raised:** The final figure of Capital Raised is based on the variables "Total Investment Commitment - Exact Amount in USD" (for the global landscape) and "Total Investment Commitment - Exact Amount in relevant currency" (for the UK landscape). This figure is calculated using only data that are publicly available.
